REPORT

OF THE

ALBERTA LIQUOR CONTROL BOARD

INTRODUCTION

At the session of the Legislature held in 1927, provision was made that the fiscal year of the Province should end on the 31st day of March in each year instead of on the 31st day of December as heretofore.

The report now submitted covers, therefore, a period of fifteen months from 1st January, 1927, to 31st March, 1928.

In order that the information submitted may be as complete as possible, the usual appendices, revised to date, are incorporated.

Seven Local Option Votes were taken during the fifteen-month period. Five of these showed a majority against Beer Licenses and the remaining two showed a majority for Beer Licenses.

The cost of holding these seven votes was \$663.47, which amount was absorbed by the Board in accordance with the provisions of Section 77 of the Act.

In addition to this expenditure a sum of \$150.00 was defrayed by the Board to cover legal expenses in connection with Local Option proceedings.

PREMISES

Since the date of the previous report most of the leases covering premises occupied as Government Liquor Stores expired, and in the majority of cases the Board took advantage of the option to renew incorporated in the original leases.

Suitable premises at reasonable rentals are therefore assured for a further term of three years, at the end of which period the matter can be dealt with subject to conditions obtaining at that time.

GOVERNMENT LIQUOR STORES

In keeping with its established policy the Board has, when approached with requests for the opening of new stores, thoroughly canvassed the situation, with the result that since 31st December, 1926, only one new store has been established. This store was opened at Smoky Lake on the 12th of December, 1927.

Applications from other centres have been received and given full and careful consideration, but the Board is not yet satisfied that there is any urgent need to enlarge its present organization.

Service by express from the stores already established to most points in the Province which are on, or near, the railways is both prompt and satisfactory and if shipment by express is not practicable owing to the location of the permit-holder, supplies are sent through the mails from the warehouses of the Board in Edmonton and Calgary.

In order to avoid discrimination against permit-holders who are obliged to obtain their supplies by mail, the Board decided to absorb the entire cost of transportation in this connection.

Vendors are instructed that all mail orders must be dispatched on the day they are received and in consequence little delay is experienced by those persons who reside where a Government Liquor Store is not established.

ALBERTA BEERS

Beer distribution facilities have undergone further consolidation, with the result that there were at 31st March, 51 brewery warehouses in operation at 27 points in the Province.

The entire question of beer distribution is under consideration, and it is confidently hoped that a satisfactory solution to this problem will be evolved in the near future.

Samples of all beers sold within the Province have been taken at frequent intervals and submitted to the Provincial Analyst, and his reports have confirmed the products of the Alberta brewers to be satisfactory both as to quality and alcoholic content.

Samples collected showed an average alcoholic content of 3.43 per cent, which is well within the maximum permitted by the Act.

As in previous years, samples have also been purchased at various licensed beer rooms and these proved to be satisfactory in all instances.

PURCHASES OF LIQUOR

All purchases of liquor made during the period covered by this report are shown in Appendix "B."

The policy outlined in previous reports has not been deviated from, and the stocks now carried enjoy a ready turnover.

Discounts and allowances amounting to \$42,483.13 have been secured by the Board on these purchases, and this sum is shown on Statement "C" of the financial returns.

WINES

The sale of light wines, although at present of comparatively small volume, continues to improve and the Board is prepared at all times to pass on to the consumer the benefit of any reduction in price which it may be possible to make from time to time.

Sales for the past fifteen months totalled 172,000 gallons

as against 132,735 gallons for twelve months to 31st December, 1927, and 105,000 gallons in 1926.

PERMITS

The number of each class of permit sold during 1927 is shown in Appendix "A" to this report.

As the proceeds of the sale of permits are paid direct to the Provincial Treasurer, the amount realized is not included in the financial returns of the Board.

The amount is shown on the Balance Sheet for information only, as a liability, and is included in the sum paid over by the Board to the Provincial Treasurer.

The sale of Permits for the year 1927 realized \$147,334.75, and for the first three months of 1928, \$75,584.75, but as a large proportion of these latter permits are good until the end of the year, the details of those sold are not included in the appendix.

PERMITS CANCELLED

Permits to the number of 545 were cancelled during the period, of which number 279 were held by persons interdicted whose permits are cancelled automatically, in accordance with the provisions of Section 102 of the Act, immediately upon receipt of the order of interdiction.

INTERDICTION

During the same period 675 Orders of Interdiction were received by the Board and of this number 396 of the persons named did not hold a permit.

During the same period 419 orders were revoked, leaving the number of interdictions in force at the 31st of March, 1928, as 877, which figure represents the total of orders still outstanding in respect to all interdictions placed during the period 10th of May, 1924, to 31st of March, 1928.

BREWERS

As at the date of the last report, six breweries hold licenses from the Board.

Two of these have received Federal Authority for a change in name, and upon receipt of a certificate from the Registrar of Joint Stock Companies the Board amended the licenses accordingly.

Licenses issued to brewers and also a record of any suspensions of warehouse privileges are shown in Appendix "C."

HOTELS

During the calendar year 1927 Beer Licenses to the number of 354 were issued to persons who complied with the provisions of the Act.

One of these was cancelled as the result of Local Option proceedings and one was surrendered during the year.

In addition to the number issued, applications were received from 27 persons, but were refused for varying reasons.

Since presenting its report for the year 1926, the Board is pleased to record that the general standard of hotel accommodation throughout the Province has been not only maintained, but in a great many instances materially improved.

Details of Beer Licenses issued during 1927 are shown in Appendix "C" where also will be found details of any penalties imposed during the entire fifteen-month period ending 31st March, 1928.

CLUBS

Licenses were issued to 48 Clubs in 1927.

It was not found necessary to discipline any club licensee during the year, the general conduct of these premises having been satisfactory.

CANTEENS

Beer Licenses were issued to 21 canteens during the calendar year, and in all instances the premises were conducted to the satisfaction of the Board.

INSPECTION OF LICENSED PREMISES

All licensed premises, including, hotels, clubs, canteens and brewery warehouses, have been inspected at frequent intervals, and where, in the opinion of our inspectors, improvements in the service to the public could be effected, the matter was drawn to the attention of the parties responsible.

The manner in which premises are conducted during the license year has considerable significance when applications for new licenses are being considered.

FLAVORING EXTRACTS AND ESSENCES

Of the 1,573 extract licenses issued for the year 1927 the Board has only found it necessary to cancel 8.

"CANNED HEAT"

Considerable publicity regarding the misuse of this commodity by a certain class of men who extract the alcoholic content and use it for beverage purposes, often with disastrous results to themselves, has been voiced in the press both editorially and otherwise.

The Board has had this problem before it for over two years and has endeavored by every means in its power to have the manufacturers so change the formula that it would be impossible to use any part of the product for beverage purposes.

A voluminous correspondence has been exchanged, but the evil has not been either eradicated or corrected.

An amendment to the Liquor Control Act, effective 1st July, 1928, will enable the Board to deal with the situation if the menace is not otherwise controlled by the parties interested in its sale in this Province.

HOME-MADE WINES

From time to time the Board receives applications from persons who wish to manufacture wine for personal consumption and who are under the impression that the Board will issue permits in this connection.

This the Board cannot do.

To clear up any misconception in the minds of the public we must respectfully point out that immediately any home-made wine or beer develops an alcoholic content of $2\frac{1}{2}$ per cent. in proof spirits it becomes liquor within the meaning of the Liquor Control Act and its possession by householders is illegal, unless it has been purchased on a permit through legal channels.

TEMPERANCE BEER (*Commonly Known as "Two Per Cent"*)

On and after 1st July, 1928, the product known as Temperance Beer, or as it is popularly described "Two Percent," may only be legally sold by those persons who hold a Beer License issued by this Board, or by a Government Liquor Store.

PRESCRIPTIONS BY MEDICAL PRACTITIONERS

During the fifteen months the Government Liquor Stores have filled 3,197 prescriptions issued by members of the medical profession.

This number is exclusive of those filled by druggists in municipalities where there are no Government Liquor Stores.

CONFISCATED LIQUOR

Any liquor ordered confiscated by the courts is subjected to the closest scrutiny before its final disposition is decided upon.

The quantity found to be genuine and fit for sale is purchased from the Attorney General and the balance destroyed under his authority.

Appendix "D" gives details of the liquor confiscated during the year.

MANUFACTURE AND SALE OF ILLICIT LIQUOR

The Law Enforcement Officers of the Board have continued their efforts to suppress by all means in their power, the manufacture and sale of moonshine.

It has long been recognized that the suppression of the manufacture of illicit liquor is the function of the Federal Government; and the Department of National Revenue (Excise Branch) has recently established in Alberta an enlarged

organization to deal with this work. In view of this the Board anticipates a material reduction in the cost of our enforcement work during the coming year.

LAW ENFORCEMENT

The officers of the Board have continued to receive the unequivocal support and assistance of the Alberta Provincial Police and the City and Municipal Police forces throughout the Province and to these forces it extends its grateful thanks and appreciation.

In the National Parks the Royal Canadian Mounted Police have rendered valuable assistance and the thanks of the Board are also extended to the officers of that force.

The Board's own force of Law Enforcement Officers have conducted investigations in all parts of the Province and in pursuance of their duties have travelled some 147,000 miles by automobile and 80,000 miles by train and otherwise.

The services of this branch have been highly satisfactory and they have conducted their difficult work with a minimum of friction with the public.

A summary of all convictions under the liquor laws of the Province for the period of fifteen months from 1st January, 1927, to 31st March, 1928, is shown in Appendix "E."

STAFF

This report would not be complete without a word of commendation and appreciation of their services to the entire staff, whose efforts are to a great extent responsible for the results obtained.

GENERAL REMARKS

During the period from 1st January, 1927, to 31st March, 1928, the Board and the Brewers of Alberta have between them paid to the Dominion Government a sum in excess of \$3,012,000.00 by way of Customs and Excise Duties on liquor and spirits, taxes on beer, excise tax on malt and sales tax, etc., on the various products sold.

A calculation based on the amount of gallonage tax paid through the Brewers to the Board discloses that the brewers of Alberta sold approximately 4,553,600 gallons of malt liquor within the Province during the same period.

In addition they exported to the Liquor Board of a neighboring province some 418,000 gallons, on which quantity the gallonage tax was rebated to them.

The number of sales on individual permits made through the Government Liquor Stores and Warehouses, from 1st January, 1927, to 31st March, 1928, totalled 1,107,306, at an average for each sale of \$5.44. In addition to these, 6,053 sales were made to licensees and to the holders of special permits, such as hospitals, physicians, druggists, etc.

Shipments of liquor to permit-holders through the mails from the two warehouses of the Board totalled 3,010 packages, at a cost for transportation of \$2,127.59.

Shipments by express from the warehouses and stores totalled 58,314 at a cost for transportation of \$26,313.18, which expense was absorbed by the Board.

Incoming shipments totalling 728 were placed in the Customs and Excise Bonds, and 4,470 removals were made from these bonds during the period. The entire work in this connection is done by employees of the Board and in consequence the usual fees are eliminated.

A comparison of sales on a gallonage basis shows the following percentages to total sales:

	Sales in Gallons	Percentage to Total Sales
Beer, Ale and Stout.....	4,565,000	92.46 %
Wines	172,000	3.48 %
Spirituuous Liquors (other than alcohol)	195,000	3.95 %
Alcohol (including sales to hospitals, druggists, manufacturers, etc.)	5,600	.11 %
		<hr/> 100.00 %

CONCLUSION

During the entire period covered by this report the Board has continued to receive valuable co-operation and assistance from the general public of the Province, for which it takes this opportunity of recording its appreciation.

All of which is respectfully submitted by

R. J. DINNING,
Commissioner.

(For Auditor's Certificate See Next Page.)

Edmonton, Alberta, June 12, 1928.

I have audited the books and accounts of the Alberta Liquor Control Board for the fifteen months ended March 31, 1928, and find that the above Balance Sheet, at that date, and the accompanying Profit and Loss Account are in accordance therewith.

I certify that, in my opinion, the above Balance Sheet is properly drawn up so as to show the financial position of the Alberta Liquor Control Board as at March 31, 1928, and the annexed Profit and Loss Account states the result of operations for the period ended at that date.

All my requirements as Auditor were complied with.
